## HOBSON PLEADS FOR MOR E BATTLESHIPS

Warns That Anglo-Japanese  
Alliance Is Offensive as Well  
as Defensive Pact.

Warning the United States not to lose sight of the fact that the Anglo-Japanese alliance is an offensive as well as a defensive pact, Congressman Richmond Pearson Hobson, foremost exponent in the House for a larger navy, today opened the fight for a bigger battleship program when the consideration of the naval appropriations bill was continued.

That provision of the bill which authorizes the construction of two new battleships in the coming year became the target for attack as soon as the measure was called up. Congressman Slayden of Texas offering the first amendment and urging that instead of two battleships, five destroyers be purchased. He also urged that the use of women on that day, and the office of many more is expected.

Mrs. Ada Weiss is lining up the patriotic organizations of the city for Patriotic Day, February 22, Washington's Birthday. An effort will be made to get the G. A. R. to co-operate in the collection work on that day. Mrs. Norman J. Hill is organizing the Petworth with the help of members of the Petworth Woman's Club.

## MODEL BATTLESHIP SHOWN AT KANN'S

Operation of Vessel Exactly  
Like That of Real Warcraft.  
Thirteen Feet Long.

An actual working model of the battleship Massachusetts, with propelling machinery, swinging turret and movable guns, is on exhibition at the store of S. Kann, Sons & Co., at Eighth street and Market space.

This battleship is almost as big as an ordinary rowboat, and larger than the model of battleships built at the Washington Navy Yard.

The model is not a toy, but is an actual model on scale with all movable parts and capable of full operation. It was designed and constructed by Samuel Orkin, of Boston, as an educational exhibit to demonstrate battleship operation to landmen. It will be on exhibition at Kann's throughout the week, and then will be taken to the Panama-Pacific Exposition at San Francisco.

Mr. Orkin hopes to interest the Government in the educational advantages of the model for exhibition to inland taxpayers, as a means of showing graphically what a portion of their taxes are spent for.

## Schwab's Plant Crippled By Mysterious Mishap

SOUTH BETHLEHEM, Pa., Feb. 5.—Bursting of a 36-inch water main caused a shutdown of the entire Bethlehem steel plant. It is the first time the entire plant has been crippled, and the great contractors Mr. Schwab is filling for war material for European nations will be held up until the break is fixed.

What caused the break could not be learned. Rumors were spread that the water main had been tampered with, possibly by some person in sympathy with countries other than those for which the steel company is making war material, but nothing could be learned on the subject.

Through this broken main flowed the entire water supply for all the machine shops, armor plate, and projectile plants, blast and open hearth furnaces, etc. Fires were immediately blanketed, possibly 11,000 men will be idle until the break is mended.

## TO DISCONTINUE LOOP SERVICE ON MONDAY

Beginning Monday, the operation of the Fourteenth street car line around the loop, as the circling of the Capitol grounds is termed, will be discontinued, and the cars will run direct to the Navy Yard by way of B street.

Many additional protests against the abandonment of the service were received today. Among them was a petition signed by over a hundred residents of the section to be affected, who stated that it would deprive them of direct transportation to the Pennsylvania avenue lines. The petition was presented by James E. Falk, of 121 A street northeast, who named the list. Other protests were received from Florence A. Hill, of 121 A street northeast, and A. L. Baldwin, of 125 A street northeast. These, together with all other protests received, will be placed before the Utilities Commission when its employees have procured information as to the number of persons served by the line.
